

I can't believe you would want to take a station like KLOVE off the air. I look forward everyday to the positive and encouraging music and message. There is definitely no other station like it in the Dayton area. It is a listener supported station and the listeners have spoken by giving our hard earned money to support this wonderful station, that touches lives and hearts all over the area by the minute. Please reconsider your expansion of the Low Power FM.
Sincerely, Teresa Moon
